

Clematis & Climber Feed

BY APPOINTMENT TO
HIS MAJESTY KING CHARLES III
MANUFACTURERS OF FERTILISERS
AND PLANT HEALTH PRODUCTS
VITAX LIMITED
LEICESTERSHIRE

TAILORED NUTRIENTS

Trace elements for
masses of beautiful
flowers

Healthy plants with lush,
rich foliage

The perfect nutrients
for climbers that thrive in
pots or in the ground

Bottle - Widely recycled. Remove sleeve first
Sleeve - Recycle with bags at large stores
Cap - Widely recycled

Bottle made from at least
30% recycled plastic

Clematis & Climber Feed

More flowers, brighter blooms and
strong, healthy growth

Prolific flowering and
longer-lasting blooms

Also boosts Jasmine,
Honeysuckle, Wisteria

Added trace elements
for superior growth

Fills gardens with vibrant
blooms & fragrant scent

HOW DOES YOUR GARDEN GROW?
PLEASE SHARE @VITAXGARDEN

Clematis & Climber Feed

Clematis plants, whether grown in the garden or in containers, like a rich, free-draining growing medium with good nutrient levels and a regular supply of water and high-quality nutrients. Vitax Clematis & Climber Feed is a high potash fertiliser with organic nutrients for increased plant growth, healthier roots and vibrant flowers. The magnesium, iron and trace elements in the feed ensure the ideal balance of healthy plant growth and abundant flowering.

DIRECTIONS FOR USE

Shake the bottle before use. Dilute at a rate of 1 capful (20 ml) in 4 litres of water. Feed every 14 days from April to September in place of normal watering, soaking the soil around the base of the plant.

✓ VEGAN

Made from mineral and plant-based materials including cane sugar molasses and plant starches. It contains no animal derived materials, making it suitable for vegan use.

Caution

Wash hands after use and wash splashes from skin. We recommend using gloves when gardening.

Avoid over-watering or allowing plants to dry out. Free draining growing media should be well watered to prevent plants from drying out as this can cause damage to the roots. Do not keep diluted feed.

Keep out of the reach of children. Store out of direct sunlight, in a cool dry place between 0°C and 30°C
